### **ProjectWise Consulting Recognized as Certified Woman-Owned and Minority-Owned Business by the State of Wisconsin**

[Wausau, WI – July 3, 2025] – ProjectWise Consulting LLC is proud to announce its official certification as both a **Woman-Owned Business Enterprise (WBE)** and **Minority Business Enterprise (MBE)** by the State of Wisconsin’s Department of Administration Supplier Diversity Program.

These certifications affirm ProjectWise Consulting’s ownership, leadership, and commitment to excellence under the direction of founder Mary Thao and Jodie Gardner. The firm’s designation as a certified WBE and MBE underscores its dedication to driving innovation and delivering strategic consulting services while contributing to a more inclusive and equitable business landscape.

“This recognition is an honor,” said Thao. “Being certified as both a woman- and minority-owned business helps open doors to partnerships that value diversity and leadership excellence. At ProjectWise, we take pride in being part of Wisconsin’s growing community of diverse business leaders.”

The certifications are valid through **June 27, 2028**, contingent on annual updates and recertification compliance. These credentials enhance ProjectWise Consulting’s visibility and eligibility for bid preferences on state contracts and procurement opportunities. The company encourages partners to verify its certification status via the Wisconsin Supplier Diversity Program website: <https://wisdp.wi.gov/Search.aspx>.

ProjectWise Consulting specializes in complex system implementations, activation planning, and digital transformation strategies—working with clients across healthcare, agriculture, and manufacturing sectors.
